INDUSTRIAL GRATER

IR 250-D

The high-performance grater featuring the pre-rotation system and digital control for perfect grating results.

FEATURES

- The digital control system has 100 memory slots for storing custom grating programmes
- The unique pre-rotation system enables gentle, careful processing of food
- Made entirely from stainless steel for hygienic use in your business. All removable parts are dishwasher-safe
- Powerful and maintenance-free motor with in-house designed gear transmission
- Handcrafted grating plates ensure perfect results and durability

BENEFITS

- Customisable and flexible for use as a stand-alone machine or for integration into existing production lines
- Adjustable speed for perfect results and maximum performance
- Pre-rotation system ensures food is grated through a smooth and gentle process without damaging, oiling or clumping
- Fully integrated cooling circuit for optimal processing of temperature-sensitive products
- Easy and flexible positioning thanks to castors
- Maintenance-free machine

HIGH-PERFORMANCE INDUSTRIAL GRATER FOR VERSATILE APPLICATIONS AT THE HIGHEST LEVEL

The latest generation of our IR 250-D industrial grater is ideal for grating cheese, chocolate, nuts, biscuits, pharmaceuticals and, in particular, delicate products. Maximum working comfort is ensured by the optimal working height, as well as by the quick and easy change of grating drums. Digital control, simple operation and programmable settings – for consistently perfect results.

TECHNICAL DATA

Voltage:	3x 400 V, 50 Hz (3P+N+E)
Motor:	3 kW
Protection:	IP 26 surge water
Weight:	155 kg
Dimension:	817 x 482 x 1435 mm
Opening Hopper:	178 x 110 mm

SERVICE

Although our machines are completely maintenance-free, we still offer our customers a wide range of support options.

ABOUT US

Our 100-year history forms the foundation of our know-how in cutting, grating, grinding and separating. Machines from Brunner-Anliker stand for precision, durability and reliability from Switzerland: from their development to production to sales, all processes take place in Brunner-Anliker's branches in Switzerland.

GRATING DRUMS

Grating drums are handcrafted in our in-house workshop. Each grating drum is individually stamped, sharpened and embossed. Thanks to this unique manufacturing process, our grating drums offer an unrivalled lifespan and can process harder, softer and more delicate products.
